TO BE COMPLETED BY FUNERAL DIRECTOR

TO BE COMPLETED BY PHYSICIAN: MEDICAL CERTIFICATION

BALTIMORE, MARYLAND 21215-0020

DIVISION OF VITAL RECORDS, P.O. BOX 68760

TO THE HOSPITAL OR ATTENDING PHYSICIAN: The law requires that the death certificate be executed within 72 hours after death. Page 6 may be retained by the hospital or attending physician. TO THE FUNERAL DIRECTOR: After this certificate has been signed by the attending physician and completely filled in by the funeral director, page 5 should be detached for use as the burial-transit permit. Page 3 should be filed within 72 hours after death with the State Dept. of Health and Mental Hygiene prior to burial, cremation, or removal.

IMPORTANT: If item 28 is marked, or item 23 shows any injury, or other traumatic event, the medical examiner must be notified at once.

STANDARD METHOD

1. The first step in the process is to identify the problem. This involves a thorough analysis of the situation and the identification of the key issues. Once the problem has been identified, the next step is to develop a plan of action. This plan should outline the steps that need to be taken to solve the problem and should be realistic and achievable. The third step is to implement the plan. This involves putting the plan into action and monitoring progress. The final step is to evaluate the results. This involves assessing the effectiveness of the plan and making any necessary adjustments.

2. The second step in the process is to identify the resources. This involves identifying the people, money, and materials that are needed to solve the problem. Once the resources have been identified, the next step is to develop a budget. This budget should outline the costs of the plan and should be realistic and achievable. The third step is to implement the plan. This involves putting the plan into action and monitoring progress. The final step is to evaluate the results. This involves assessing the effectiveness of the plan and making any necessary adjustments.

3. The third step in the process is to identify the risks. This involves identifying the potential problems that could arise during the implementation of the plan. Once the risks have been identified, the next step is to develop a risk management plan. This plan should outline the steps that need to be taken to minimize the risks and should be realistic and achievable. The third step is to implement the plan. This involves putting the plan into action and monitoring progress. The final step is to evaluate the results. This involves assessing the effectiveness of the plan and making any necessary adjustments.

4. The fourth step in the process is to identify the stakeholders. This involves identifying the people who are affected by the problem and the plan. Once the stakeholders have been identified, the next step is to develop a communication plan. This plan should outline the steps that need to be taken to keep the stakeholders informed and should be realistic and achievable. The third step is to implement the plan. This involves putting the plan into action and monitoring progress. The final step is to evaluate the results. This involves assessing the effectiveness of the plan and making any necessary adjustments.

5. The fifth step in the process is to identify the feedback. This involves identifying the ways in which the stakeholders can provide feedback on the plan. Once the feedback has been identified, the next step is to develop a feedback plan. This plan should outline the steps that need to be taken to collect and analyze the feedback and should be realistic and achievable. The third step is to implement the plan. This involves putting the plan into action and monitoring progress. The final step is to evaluate the results. This involves assessing the effectiveness of the plan and making any necessary adjustments.
